**27 OCTOBER, 2024**  
 5:00AM REGISTRATION

## WORLD PSORIASIS DAY 2024: A CELEBRATION OF RESILIENCE, FAMILY, AND COMMUNITY

On October 27, 2024, a vibrant celebration of community, awareness, and solidarity unfolded as Psoriasis Philippines (PsorPhil) commemorated World Psoriasis Day with the theme "Psoriasis at Pamilya". Held at the San Andres Sports Complex in Malate, Manila, shedding light on the profound impact of psoriasis, not only on individuals but also on their families who serve as their pillars of support.

### **Kickstarting the Day with a Funwalk**

The day begins with a lively funwalk along Roxas Boulevard. Aptly named "Fiesta Pamilya sa Barrio PsorPhil", participants are encouraged to bring recycled, colorful banderitas to enhance the festive ambiance. The Funwalk symbolizes more than just movement; it represents the collective journey of families and individuals navigating the challenges of psoriasis. Through this symbolic act, PsorPhil aims to advocate for inclusivity.

## A Day to Celebrate Family Bonds

The event offered various activities designed to engage attendees of all ages. From educational discussions about psoriasis management to family-centric games and even a Zumba battle. These activities highlight the vital role families play in providing emotional, psychological, and physical support to those living with psoriasis. PsorPhil aims to break the stigma associated with psoriasis and empower individuals and their loved ones to embrace the condition as part of their shared journey.

## A Heartfelt Thank You to Psoriasis Partners

Psoriasis Philippines extended its heartfelt gratitude to all its supporters, partners, and volunteers who continue to champion the advocacy for greater psoriasis awareness and understanding. Our very own, Dr. Julie Li-Yu was awarded Doctor of The Year, championing the votes of our Psoriasis warriors. Reinforcing UST Hospital's established commitment to create a more inclusive and compassionate community for everyone affected by psoriasis.

## Join Us in Making a Difference

Together, we celebrated the lives touched by psoriasis and created a ripple of awareness that will extend far beyond this momentous day. Let's continue to shine a light on psoriasis and support one another in this journey.
